MAISON & OBJET PARIS - 18.22 Jan 2019

This piece of art tells stories of looting and fury, from pirates to avid treasure hunters. The luxurious dagger ripping the treasure map symbolizes these serves. This piece is composed by precious stones and diamonds. The engraved eagle at the end of the cape represents the strength and power of these sea men.

Pirate Wall Accessory is a piece full of life and a strong soul, bringing, to our interiors, stories of reckless adventures.
