BESSA chose the excellence of Portuguese goldsmithing to make another limited edition piece and celebrate one more year. RUINS console infuses the classic culture into BESSA's furniture inspired by the richness of the ancient ruins and the figures of Greek mythology that are cherished by all of us. This exquisite piece plays a special tribute to Apollo, the Greek God of beauty and art, by showing his face being reborn from ruins.

# MOONLIGHT

## WALL LAMP

BESSA was inspired by the Moon to bring additional passionate memories to the environments that it re-creates. How many stories of love and happiness were experienced in the moonlight of a huge and beautiful Full Moon? Every moment is kept forever in our memory. BESSA recreates these moments through a piece of Art & Design that recalls this moon so full of life.

Moonlight is such a beautiful piece that makes us nostalgic!

BESSA added even more value to Moonlight's details through jewelry techniques that recreate the unique features of the Moon's craters in a piece that is true to its inspiration!
