mirror

W 130cm (51,2") H 257cm (101,2") D 12cm (4,7")

As children, we imagined and felt things our way: beautiful, comfortable, fulfilling and challenging. This mirror visually summons the nostalgia of such distant world to which we are bound by feelings of belonging that remain alive and very dear. As we look at ourselves in the Imaginarium mirror, we remember old adventures and let ourselves into new and passionate realities. The Imaginarium mirror is a piece of art with a strong visual impact. Marilyn Monroe, the sexiest Pin-up of the 50's, inspired a piece of Art & Design. The design of the Monroe Lamp captures the essence of her image and the sensuality of her legs. MOAI

console

W 165cm (64,9") H 85cm (33,5") D 40cm (15,7")

The Moai, also known as the Great Heads or the Naoki, are 887 colossal statues in stone located on Easter Island. These beautiful creations are wrapped in mystery and there are several theories around their existence. For some, the Moai were an homage to the ancestors and the gods. For others, especially the Moai that have "hats" (Pukao), served as lightning rods. What is certain is that the incidence of lightning on the island is high, and at night or on days of low light, the Moai are illuminated when charged with lightning energy. The Moai are one of the most mysterious and striking cultural manifestations and served as inspiration for Bessa to create a limited edition piece. A creation that preserves the mysterious stories and unique memories of a civilization that we can only imagine.

LIBERTY

armchair

W 112cm (44,1") H 145cm (57,1") D 90cm (35,4")

The sculptural forms of the 30's inspired the 'Liberty Collection'. The tubular and steel structures that have marked those years are combined with a new inspiration that emphasizes the antagonistic feeling of deprivation of liberty. This conjunction marks the alliance of a vintage style with modern sensibilities. The curvy and exaggerated shapes of the chair's arms symbolize the end of enclosed spaces which are transformed into open doors to freedom.

Materials: Polished brass + varnish, patterned velvet.

CHESS

center table

W 145cm (57,1") H (table top) 31cm (12,2") + (horse) 29cm (11,4") D 145cm (57,1")

Chess was invented in Asia about 1500 years ago but it was in the XIII century that modern chess was born and implanted in Europe. The Chess Table is inspired by the chess board and the game's most important move, the checkmate! The Chess Table depicts the ultimate play in which the Horse defeats the King, who metaphorically melts into a space that recreates a battlefield. These pieces were designed by Bessa and hand carved. A piece of art and design that recreates one of the most ancestral and strategic games of civilization

Materials: Polished brass + varnish, mdf structure, walnut root veneer + high gloss varnish.

LENNON

console

W 151cm (59,4") H 86cm (33,8") D 38cm (14,9")

Bessa started 2019 by launching a piece inspired by a story that touched the world. The life of John Lennon - an artist who found one of the most important bands of the twentieth century and who revolutionized the music industry. Lennon's music inspired love throughout generations and still moves hearts nowadays. Bessa celebrates Lennon's life and created another piece filled with passionate memories.

MURANO

mirror

W 83cm (32,7") H 183cm (72") D 4cm (1,6")

This is a piece inspired by the widely appreciated Murano mirrors. These pieces are replenished with delighting flower-patterned designs worked in glass. Bessa took on the challenge to recreate the Murano mirror and introduced a flower worked in filigree, which is a Portuguese traditional craft production technique. The petals worked in a filigree thread recreate the beautiful flower unfolding movement, guiding our look to the heart of this piece. The essence of Bessa's Murano mirror is entirely in this filigree work combined with an aged glass that takes us to the past and recuperates cherished memories.

Materials: Fine silver + 24K fine gold plated, aged extra clear tempered glass, (back) black lacquered mdf, mirror.

CHIAVARINA

dining chair

W 53cm (20,9") H 93cm (36,6") D 53cm (20,9")

The Chiavarina was created in 1807 by a carpenter from Chiavari, Italy. Giuseppe Gaetano Descalzi reformulated some of the French Empire style chairs by simplifying the decorative elements and by emphasizing the structural features. The chair was such a success that soon after many factories opened in Chiavari and neighbouring towns. The Chiavarina became a world icon and it is still used today in noble and important events. Bessa has redesigned this piece, adding back the French decorative elements in a hand-carved handle. The chair gains a new, more contemporary look, while preserving its roots.

Materials: Polished brass + varnish, velvet.

1.3

side table

W 57cm (22,4") H 40,5cm (15,9") D 45cm (17,7")

These adventures always end up in a mess with things spread around the floor! When transported into the piece, this chaos results in unusual textures and patterns, and is materialized in a piece of art & design with rare beauty and many moments to remember, especially by parents.
