# PERGAMO

## SUSPENSION LAMP

Width 100cm (39,4") Diameter 9cm (3,9")

During the September edition of Maison et Objet, Bessa will launch an extraordinary assortment of products within different categories. Among these categories there is a novelty – the category of suspension lamps – allowing the brand to complete yet another milestone that will enrich its product legacy. The Pergamo suspension lamp is the first product being launched within the new category. This piece was born from the Pergamo lamps collection which was inspired by the parchments used by ancient people to record important data.

In addition to the Pergamo suspension lamp, many more pieces will be released in various categories, such as, dining tables, dining chairs, mirrors, floor lamps, upholstery, among others. One of the highlights among the new releases is the Viking dining chair, which was inspired by the Viking era. This piece recreates rustic shapes and textures that bring us back to a remarkable period of the medieval history. The Viking chair stands out for its innovative and sophisticated finishes that go beyond conventional decor pieces.

## MOAI BIG

DINING TABLE

Height 75cm (29,5") Width 400cm (157,4") Depth 180cm (74,8")

## PIRATE

MIRROR

The Pirate mirror is a piece of art that tells stories of looting and fury, from pirates to avid treasure hunters. The luxurious dagger ripping the mirror symbolizes these serves. The dagger is made with fine silver and decorated with precious stones and diamonds. The Pirate mirror is a limited edition of 10 units.

The San José side table pays tribute to the San José galleon and recreates the treasure of the richest shipwreck of all time, known as the "holly grail of shipwrecks". This art piece will be revealed first-hand at Maison et Objet Paris.

Bessa will open an exciting and new cultural chapter for Paris with the launch of three amazing limited editions. These masterpieces will bring passionate and mysterious stories to the city of light. These stories are materialized in noble materials and delicate craft production that elevate premium design to a whole new level. They will all be publicly presented for the first time at Maison et Objet. The Moai Big dining table is an astonishing art piece that is supported by four stunning Easter Island heads in polished brass. The glass top makes this creation elegant and fit to be the queen of any dining room. Moai Big is limited to 50 units.

MONROE  
FLOOR LAMP

*Classic*

Bessa continues its relentless mission of sharing unique design that combines innovation with style, crafted with the finest quality. Another example of this testament is the renovation of one of Bessa's most iconic pieces, the Monroe floor lamp, in a new limited edition of 50 units. The majestic change of this unique design is captured by the gleam of the dramatic and artistic finishing, which is an innovative brass work. Bessa invites art and design lovers to see the new look of the world's sexiest lamp, from the 6th to the 10th of September in Paris.
