The sculptural forms of the 30's inspire the 'LIBERTY COLLECTION'. The tubular and steel structures that have marked those years, are combined with a new inspiration that emphasizes the antagonistic feeling of deprivation of liberty. This conjunction marks the alliance of a vintage style with modern sensibilities. The curvy and exaggerated shapes of the sofa's arms, symbolize the end of enclosed spaces which are transformed into open doors to freedom. These pieces are made of noble and luxurious materials, such as brass (properly treated with antioxidant) and cow leather from Normandy - France.

BESSA developed an iconic collection, with products for sophisticated people and connoisseurs of Art & Design.

NOTES TO THE EDITOR

The Designer

João Bessa is a creator who seeks the origins in all aspects of his daily life. Being passionate about the history of Design, João is inspired by Vintage & Classic and recreates the best of the past in his own way. He combines his very own style with Art and Design, creating exclusive furniture pieces of pure beauty.

João was born in Braga and studied management, but soon realized that his passion was in the creation of art and design pieces. Attracted by the multicultural environment and the unique architecture of the city, João moved to Oporto city where he earned a degree in Product Design.

After working with several international recognized brands in the world of Design, João Bessa decided to make his passion a way of living. It was then that he decided to create his own design brand. In 2014, BESSA - new antique design was born to make the world aware of the exclusive products made in Portugal.
